

WAVING NOT DROWNING

Loveliest Element:
A whole night's sleep.
Waving Not Drowning is the survivor of Mo's Colour Therapy experiment quartet of Ballistics from the late 20th Century. It is a pastel blue mauve colour to help induce feelings of calm and sleepiness when you're in the wrong time zone or the wrong mood for sleep to come easily. Soak in its peaceful blue waters and it puts you in the right state to sleep long and uninterrupted (except by things over which we have no control), as 90g/3.1 oz.

Ingredients: Sodium Bicarbonate, Citric Acid, Lavender Oil (Lavandula hybrida), Ylang Ylang Oil (Cananga odorata), Fennel Oil (Foeniculum vulgare), Benzyl Salicylate, Geraniol, Benzyl Benzoate, Farnesol, Limonene, Linalool, Perfume, D&C Violet No. 2.

"A must for insomniacs - lovely lavender scent that soothes and calms."
Sue Cope, Chelmsford.

The Sicilian

(SOLD IN GIFTS ONLY)

Loveliest element:
Orange groves
We don't put a whole orange grove into a Sicilian, just the best bits. Pettigrain essential oil is made from the pips and twigs from orange trees, then there are tangerine, mandarin and orange oils for their ability to cheer you up calmly (with moderation). Neroli, made at huge expense from the tiny, fragrant, white flowers of the bitter orange tree, lifts you up and plonks you right in the middle of a warm, sunny Sicilian orange grove (Just run the bath, get in and close your eyes.)

180g/6.3 oz.
Ingredients: Sodium Bicarbonate, Citric Acid, Orange Slice (Citrus sinensis), Orange Oil (Citrus dulcis), Tangerine Oil (Citrus reticulata), Mandarin Oil (Citrus nobilis), Neroli Oil (Citrus amara), Bergamot Oil (Citrus bergamia), Marigold Petals (Calendula officinalis), Limonene, Linalool, Perfume, Gardenia Extract (Gardenia jasminoides).

AN ODE TO LUSH

oh how do i LUSH Me
Let Me COUNT the ways
a BABYFACE AND BUFFY BOB
SOFTNESS RULES MY DAYS
WAKING UP WITH
CHAMPAGNE SNOW OR SOME
HAPPY HIPPIY POWER NEVER
have i gained SO MUCH
FROM MY MORNING SHOWER
AND WHEN MY SKIN'S A
LITTLE DULL AND I'M
MOVING KIND OF SLOW JUST
A TOUCH OF OCEAN SALT
BRINGS BACK MY LUSHY
GLOW OF COURSE NOW,
EVERY SMART GIRL KNOWS
when her SKIN is FRESH
AND bare NOTHING FEELS
quite AS nice AS SILKY
UNDERWEAR YESTERDAY WAS
kind OF GREY AND I WAS
feeling Rather Sad
BUT THEN I THOUGHT: JUST
Think PINK AND Like
magic, i WAS GLAD I have
a LOVELY LITTLE GIRL WITH
SKIN SO SOFT AND SWEET
WE USE HONEY I WASHED
The KIDS FROM her HEAD
DOWN TO her feet A
WORKING MOM, i NEED MY
REST NO IF, ANDS, BUTS OR
MAYBE SOME HOT MILK AND
A SCHNUGGLE HAS Me
SLEEPING Like a baby SO
MANY WAYS TO be GORGEOUS
PROVIDING BEAUTY BEYOND
ALL MEASURE I'M SO
THANKFUL TO YOU LUSH
YOU'RE TRULY A PLEASURE
TREASURE!

LUSHali,
chicago, IL

Fairy Jasmine

Loveliest element: We can't decide between the jasmine fragrance and the fairy sparkles.

We do occasionally harp on a bit about the aphrodisiac qualities of essential oils. The one we harp on about most is definitely jasmine, although we add vetiver and ylang to the Fairy Jasmine just to be sure it works. The scent is out of this world. We don't think there is anyone else making bath products with real jasmine, certainly not at less than \$50 a go. Then... we add a mound of iridescent fairy dust for the most magically twinkling bathing experience you can imagine.

039 180g/6.3 oz.
Ingredients: Sodium Bicarbonate, Citric Acid, Fairy Dust (Polybutylene terephthalate & Acrylates copolymer), Perfume, Jasmine Absolute (Jasminum officinale), Vetiver Oil (Vetiveria zizanioides), Ylang Ylang Oil (Cananga odorata), D&C Red No. 33, D&C Violet No. 2.

BOLLYWOOD

Loveliest element: The exotic spices
There's nothing like a nice hot bath to warm you right through when you've been chilled to the bone. Even better is a warm bath with a helping of spices to relax your muscles: they tingle as they tickle your nose and warm your body right through. Orange essential oil refreshes your spirits so you'll be ready for a night of Bollywood style dancing, singing and intriguing passion.

2355 180g/6.3 oz.
Ingredients: Sodium Bicarbonate, Citric Acid, Creamed Coconut Powder (Cocos nucifera), Perfume, Orange Oil (Citrus dulcis), Ginger Oil (Zingiber officinale), Black Pepper Oil (Piper nigrum), Gardenia Extract (Gardenia jasminoides), Paprika Oleoresin (Capsicum frutescens), Eugenol, Limonene, FD&C Red No. 4, Kaffir Lime Leaf, Jelly.

* Occurs naturally in essential oils

CHLOE AND SIMON

OUR VERY OWN KAREN
WITH HEATHER FROM THE
U.K. LUSH

LUSH PRODUCTS AND STANDARDS

In this issue there are 221 individual products (not including gifts). Of these products 157 are unpreserved (71%) and 162 are vegan (73%). We test for safety on humans. We will not purchase any ingredients from any organisations which tests anything at all on animals. This means that we can supply sun block but not different sun protection factors, or hair gels, until certain ingredient manufacturers change their policy on animal testing. Sorry about that.

ALL THAT JAS

Loveliest element: The Vetiver.

All that Jasmine is a shamelessly sexy Bath Bomb disguised as an innocuous pastel green coloured ball with an innocent, little sugar flower on top but once it hits the water it starts to work its wicked ways! Sweet styxax AKA Turks sweetgum relieves anxiety. Vetiver is used to get rid of stress, tension and "the butterflies." Jasmine, ah well, what can we say? According to tradition it loosens up stiff limbs, it revitalises, it warms the emotions... Add a glass of champagne and a couple of candles and we shan't be held responsible!

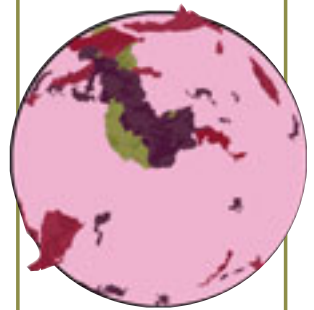

18 180g/6.3 oz.
Ingredients: Sodium Bicarbonate, Citric Acid, Perfume, Styxax Resin, Jasmine Oil, Vanilla, Vetiver Oil, Candy Flower, Gardenia Extract (Gardenia jasminoides), FD&C Blue No. 1.

Chelsea Garden

Loveliest element: The crumbling elegance of a lost palace garden
Have you read The Secret Garden by Frances Hodgson Burnett? Maybe you've seen the film or both. Chelsea Garden is like the crystallisation of a secret garden, rediscovered after decades, overflowing with fragrant blooms with rambles poking through the walls and weeds weaving through the terraces. Chelsea Garden is shabby chic, faded glory, neglected affluence. It overwhelms you with scent and bursts forth with petals.

2363 180g/6.3 oz.
Ingredients: Sodium Bicarbonate, Citric Acid, Perfume, Poppy Petals (Papaver rhoeas), Blue Mallow Flowers (Malva sylvestris), Red Rose Petals (Rosa centifolia), Jasmine Absolute (Jasminum officinale), Ylang Ylang Oil (Cananga odorata), Rose Oil (Rosa centifolia), Lavender Absolute (Lavandula hybrida), Linalool, D&C Red No. 33.

"Transport yourself to an English country garden even in the depths of winter with this decadant petal filled ballistic."
Sarah Ingram, Cardiff.

AYUNTIE PAMELA'S TOP TIPS

When your world has fallen apart and all seems lost and hopeless, go to the park and have a sneaky go on the swings while no-one's looking.

Blackberry Bath Bomb

Loveliest element: Fruitness
We have lots of citrusy ballistics with lemon, lime and orange floating around, but the Blackberry smells like a bowl of forest fruits with a hint of bergamot and a splash of warm, relaxing frankincense. It's a truly grown-up Ballistic, partly because Mo invented it over 20 years ago so it can drive, vote and get married without asking its parents first. Talking of which, frankincense is traditionally used to reduce the appearance of wrinkles. Truly a Ballistic for the adults.

2172 180g/6.3 oz.
Ingredients: Sodium Bicarbonate, Citric Acid, Perfume, Bergamot Oil (Citrus bergamia), Frankincense Oil (Boswellia cartieri), D&C Red No. 33, FD&C Blue No. 1.

"Amazingly this smells of blackberries. I often find myself sniffing my arms hours after using one of these lovely ballistics."
Sue Cope, Chelmsford.

KARMA

Karma is the epitome of everything we stand for, until we come up with a new epitome. Karma is a beautifully calming fragrance, full of eastern essential oils to stop us running about worrying and help us to chill a bit and get our heads in order. Where better to do this than in the bath?

2073 120g/4.2 oz.
Ingredients: Sodium Bicarbonate, Citric Acid, Perfume, Patchouli Oil (Pogostemon cablin), Orange Oil (Citrus dulcis), Lavandin Oil (Lavandula hybrida), Pine Oil (Pinus), Lemongrass Oil (Cymbopogon flexuosus), Elemi Oil (Canarium commune), Gardenia Extract (Gardenia jasminoides), Citral, Limonene, Linalool, FD&C Red No. 4.
